The projections are designed to meet both short-term and long-term planning needs, but are not designed to be exact forecasts or to project specific annual variation. In the population projections, after taking into consideration the actual figures and past trends on the net flow under these 3 schemes and other schemes, the long-term net inflow of Hong Kong Non-permanent Residents other than foreign domestic helpers is projected to be around 4 persons per year.

You must select a newsletter to subscribe to. Bills says: In view of these structural changes, the number of One-way Permit holders coming to Hong Kong is not likely to rebound to per day.

Netherlands 17, Est.

Meanwhile, he asserts, China is aging more rapidly and its population may be the 0-14 dependency ratio would be much higher - 37 per compared with 27 per in the median projection. In Australia, the proportion increased from 5.
